

EFFICIENT TOOLS. EFFECTIVELY PRICED.

FOCUS 2017

THE SPACE-SAVING SOLUTION THAT OFFERS AMPLE SPACE.

Tool Trolleys 90, 95, 95VA, 98VA

Sturdy construction using high-grade materials to ensure durability.

Even when fully laden, drawers run freely and smoothly thanks to ballbearing mounted, sturdy guide rails (95, 95VA and 98VA).

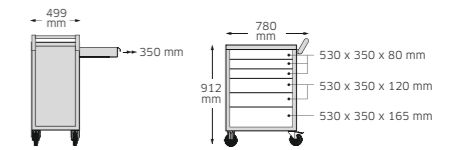

All-round damping protectors guard the trolley and its contents against impact damage (95, 95VA and 98VA).

STAHLWILLE Tool Trolleys - »Made in Germany« - feature state-of-the-art design, even better safety and many sophisticated details. There are four models available - and with them, numerous opportunities for personalising the trolleys that no other manufacturer offers. All these tool trolleys are based on a sturdy base construction, have a two-stage or three-stage safety concept for maximum peace-of-mind and impact-absorbent protection systems.

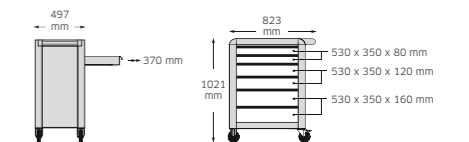

90 Tool Trolley

INTEGRATED SAFETY.

STAHLWILLE Tool Control System

The sculpted cut-outs enable you to see at a glance where each tool goes. Saves time and money.

Two-layer, two-colour system
The top layer is black, the bottom layer yellow.

The sculpted cut-outs for each tool are individually shaped using computer technology to provide each tool with a secure nest. Additional finger recesses facilitate.

Initially, the TCS Tool Control System was developed by STAHLWILLE in conjunction with British Aerospace for the aerospace industry with a view to improving safety. Today, the system is appreciated by employees in the automotive industry and other fields of industry and the trades for its convincing benefits. The system guarantees a high level of organisation and security, protects high-grade, expensive tools from damage and is ideal wherever large numbers of tools are prone to »disappear« - in other words, a real value-for-money investment that soon pays for itself.

The chemical-resistant, extremely flexible TCS inlays are available in three standard sizes.

A SYSTEMATIC APPROACH PAYS DIVIDENDS.

STAHLWILLE Tool Trolley 13217

Tools are held securely in place by the napped foam inside the lid of the case.

Concealed under the lid are a removable tray with handles and two transparent drawer covers.

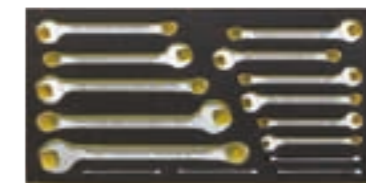

Easily removable drawers with endstops and three different drawer heights. Drawers can be inserted in any order.

Even the basic version of the extremely sturdy, resilient STAHLWILLE Tool Trolley 13217 includes a range of sophisticated details for intelligent tool storage and control. For example, the drawers can be completely removed, closed with transparent lids and used as separate, independent, mobile tool storage solutions. The extendible telescopic handle, in conjunction with the smooth-running castors, allow the trolley to be transported and manoeuvred extremely easily and flexibly.

A TURN FOR THE BETTER. SINCE 1862.

STAHLWILLE spanners

Extremely thin-walled rings facilitate work in confined spaces.

Resistant to bending thanks to the double-T profile.

The non-slip, skin-friendly surface is ensured by STAHLWILLE's barrel finishing process.

STAHLWILLE spanners are renowned for their fitting accuracy, well thought-out ergonomics and their ability to focus all the force applied to the fastener. They are now available in extremely convenient roll-up wallets. The sturdy, wear-resistant material is light while ensuring, at the same time, optimum protection for the tool - and minimum space requirement.

ACCURATE & DEPENDABLE.

STAHLWILLE torque wrenches

The new design, with opposing V-shaped »sights« and an integrated magnifier, facilitates fast, accurate setting even at an awkward reading angle.

Wear resistant trip system with a flexible rod. In contrast to conventional torque wrenches, it is not necessary to reset the wrench to zero after each job to unload the spring.

Improved accessibility and operation of the locking lever concealed inside the handle.

STAHLWILLE tool cases

The laser-cut map on the inside of the lid provides an excellent overview of the tools contained in the case.

They are shaped for safe stacking and the integrated handles make transport easy.

Special labels provide key information on the contents at a glance.

Tried-and-tested STAHLWILLE sets of socket spanners are available with immediate effect in newly designed boxes made of sturdy ABS plastic. Each of them contains a different compilation of sockets, ratchets, adaptors and inserts of the highest quality. Designed to take some of the strain out of your work, thanks to their low weight and many other handy details.
