

FOCUS

Efficient tools. Effectively priced. FOCUS 2018.

SIMPLY THE BEST WAY TO STORE THE BEST TOOLS. STAHLWILLE TOOL TROLLEYS.

STAHLWILLE Tool Trolleys - »Made in Germany« - feature state-of-the-art design, even better safety and many sophisticated details. Three models are available - and with them, numerous opportunities for personalising the trolleys that no other manufacturer offers. All these tool trolleys are based on a sturdy base construction, have a two-stage or three-stage safety concept for maximum peace-of-mind and impact-absorbent protection systems.

Sturdy construction using high-grade materials to ensure durability.

Even when fully laden, drawers run freely and smoothly thanks to ball-bearing mounted, sturdy guide rails (95, 98VA and WB620).

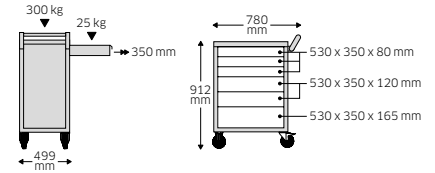

All-round damping protectors guard the trolley and its contents against impact damage (95 and 98VA).

MADE-TO-MEASURE SAFETY. INDIVIDUALLY SCULPTED TCS FOAM INLAYS.

Designed in cooperation with leading aerospace enterprises, STAHLWILLE's tool control system (TCS) guarantees absolute control over the handtools used and a very high degree of job organisation and safety.

The advantages are these

- The sculpted three-dimensional cut-outs are designed using state-of-the-art CAD technology. In this way, every tool has its own highly accurately shaped cut-out. Individual finger recesses facilitate removal.
- Thanks to the noticeable yellow background, a quick glance at the tray shows instantly if everything is where it should be. If you can see yellow - there's something missing. In addition, the cut-outs enable you to see at a glance where each tool goes, which saves time and money.
- As you would expect, chemical-resistant and extremely flexible.

Design your own individual TCS inlays - exactly the way you need them. Benefit from attractive discounts when you order several identical layouts. Contact us and we will send you detailed literature:

Arnold Russold, russold@stahlwille.de or
Roland Hubacek, hubacek@stahlwille.de

Typical price

- 1 TCS inlay for a drawer in a STAHLWILLE Tool Trolley for STAHLWILLE tools
- Dimensions 530 x 350 x 30 mm

was € 136.00

€ 68.00

SAFETY AT FIRST SIGHT.

STAHLWILLE'S TOOL CONTROL SYSTEM.

Initially, the TCS Tool Control System was developed by STAHLWILLE in conjunction with British Aerospace for the aerospace industry with a view to improving safety. Today, the system is appreciated by employees in the automotive industry and other fields of industry and the trades for its convincing benefits. The system guarantees a high level of organisation and security, protects high-grade, expensive tools from damage and is ideal wherever large numbers of tools are prone to »disappear« - in other words, a real value-for-money investment that soon pays for itself.

The sculpted cut-outs enable you to see at a glance where each tool goes. Saves time and money.

Two-layer, two-colour system
The top layer is black, the bottom layer yellow.

The sculpted cut-outs for each tool are individually shaped using computer technology to provide each tool with a secure nest. Additional finger recesses facilitate removal.

The chemical-resistant, extremely flexible TCS inlays are available in three standard sizes.

MOBILE VERSATILITY. STAHLWILLE TOOL TROLLEY 13217.

Even the basic version of the extremely sturdy, resilient STAHLWILLE Tool Trolley 13217 includes a range of sophisticated details for intelligent tool storage and control. The drawers, for example, can be completely removed, closed with transparent lids and used as separate, independent, mobile tool storage solutions. The extendible telescopic handle, in conjunction with the smooth-running castors, allow the trolley to be transported and manoeuvred extremely easily and flexibly.

Tools are held securely in place by the napped foam inside the lid of the case.

Concealed under the lid are a removable tray with handles and two transparent drawer covers.

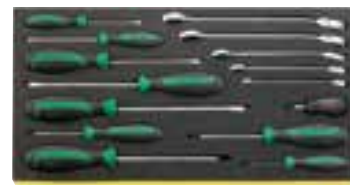

Easily removable drawers with endstops and three different drawer heights. Drawers can be inserted in any order.

A TURN FOR THE BETTER. SINCE 1862. STAHLWILLE SPANNERS.

STAHLWILLE spanners are renowned for their fitting accuracy, well thought-out ergonomics and their ability to focus all the force applied to the fastener. The extremely convenient roll-up wallets make sure everything is quickly accessible. The sturdy, wear-resistant material is light while still ensuring optimum protection for the tool - and minimum space requirements.

Extremely thin-walled rings facilitate work in confined spaces.

Resistant to bending thanks to the double-T profile.

The non-slip, skin-friendly surface is ensured by STAHLWILLE's barrel finishing process.

IT'S IN YOUR HANDS. STAHLWILLE TOOL CASES.

Neatly organised, robust and with many sophisticated details. These are the STAHLWILLE socket tool cases, made of sturdy ABS plastic. Each of them contains a different compilation of sockets, ratchets, adaptors and inserts of the highest quality. Designed to take some of the strain out of your work, thanks to their low weight and many other handy details.

The laser-cut map on the inside of the lid provides an excellent overview of the tools contained in the case.

They are shaped for safe stacking and the integrated handles make transport easy.

Special labels provide key information on the contents at a glance.
